

Cloud Verified Application Process

Overview for Cloud Providers

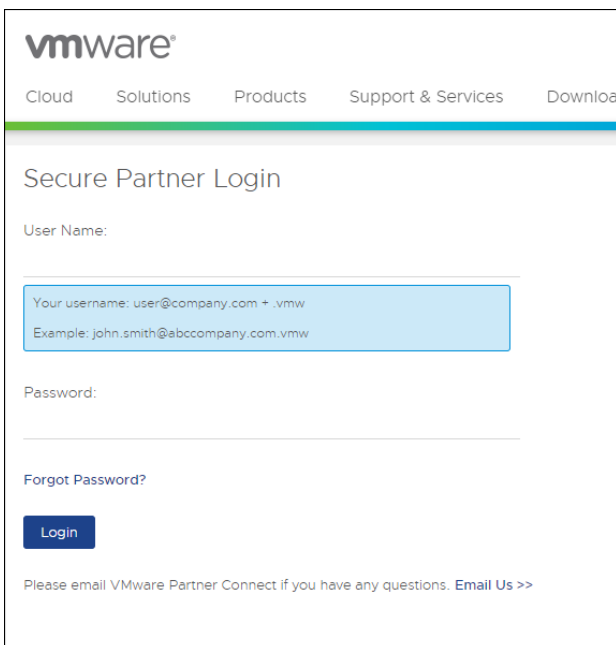

Step 1: Visit <https://cloud.vmware.com/providervalidation/>

Step 2: Select the technology for which you wish to apply.

Step 3: Click "Apply Now" to begin your selected technology validation application.

Step 4: Input your Partner Connect login credentials when you see the following:

Cloud Verified Application Process

Overview for Cloud Providers

Upon selecting “Apply Now” you will receive the following message confirming whether you wish to “Apply for Validation” (technology validation as indicated above) OR “Update Profile” for those partners with an existing profile.

Welcome To Technology Validation for
VMware Cloud Providers

Cloud Verified

Disaster Recovery
Solutions

Managed VMware
Cloud Services

First Time Users: To request validation for any of the technologies listed above please select “Apply For Validation”. Upon this selection your application will begin with a form asking for company information to create a profile. You will then be prompted to select the specific technology validation for which you are applying.

Partners With Existing Profile: To update your company profile please select “Update Profile”.

[APPLY FOR VALIDATION](#)[UPDATE PROFILE](#)

Step 5: Select “Apply for Validation” and you will see the following image:

The screenshot shows the VMware Cloud Provider Validation Portal Home page. The page has a dark blue header with the VMware logo and a navigation sidebar on the left. The main content area is titled "VMware Cloud Provider Validation Portal Home" and includes a welcome message: "Welcome VMW Partner Connect Prod". The page features a central card for "VMW Partner Connect Prod" with sections for "Compliance / Certifications" (listing AFM/DNB and AMF/ACPR), "Cloud Services Available" (listing Analytics and Application Development), and "Vertical Market Expertise" (listing Education and Construction). There is an "EDIT COMPANY DETAILS" button below this card. To the right, there is a "Cloud Verified" badge and a paragraph of text explaining the benefits of VMware Cloud Verified providers, with an "APPLY NOW" button below it.

Overview for Cloud Providers

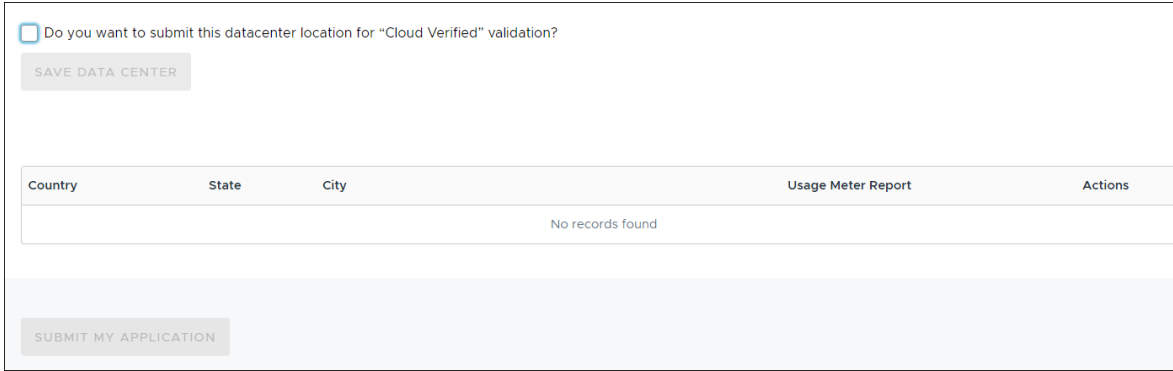

Step 6: Select the Validation for which you wish to apply (in this example the “Apply Now” button shown in the screen shot above is linked to a Cloud Verified validation).

Step 7: Fill out the required information. Note that data center submissions for generic (non-validated) data centers may be added here. Simply add the data center location and select submit.

Step 8:

If you wish to submit Cloud Verified data centers, please select the blue box (see screen shot below). Upon checking the blue box, you will be prompted to upload a Usage Meter report with screenshots indicating current product versions of [required technologies](#) for each data center location for which you are requesting validation. Review the complete list of [required technologies](#) for Cloud Verified validation which include current versions of VMware networking, storage and compute. *NOTE: the following file types are accepted for upload: jpeg, jpg, png, pdf, doc, docx, xlsx, odt, txt, csv, xml, gif and tsv.*

Step 9: Click “Save Data Center” if you wish to save the data center you added. Note: you may save multiple data centers by repeating steps 8 and 9.

Step 10: Click “Submit My Application.”

Do you want to submit this datacenter location for "Cloud Verified" validation?
